

MUNA AL-KEBASI

Mechatronics Engineering Student | Robotics | Software | Automation

Surrey, BC | 604-652-2450 | maa301@sfu.ca | linkedin.com/in/muna-al-kebasi

Education

Simon Fraser University

Bachelor of Applied Science in Mechatronic Systems Engineering

Expected May 2031

Surrey, BC

Technical Skills

Programming: Python, C, C++, MATLAB, Arduino
Robotics & Control: PID Control, Sensors, Actuators, Microcontrollers, Robotic Systems, Data Acquisition
Computer Vision: OpenCV, Image Processing, Colour Detection, Object Detection, Shape Recognition
Engineering Tools: SolidWorks, Simulink, LabVIEW, LTspice, Oscilloscopes, Multimeters, Soldering, 3D Printing
Development: Git, GitHub, Linux, Streamlit, CSS, JSON, Vercel

Projects

Study Sprout – Study Task Tracker

Python, Streamlit, CSS

- Built a study task-management application where a virtual plant progresses through four stages as users complete their tasks.
- Implemented task creation, completion, reopening, deletion, filtering, and persistent local JSON storage.
- Developed automated tests covering task actions, input validation, duplicate titles, corrupted data, failed writes, filtering, and completed states.

WEIN – Social Discovery & Group Planning Platform

Live App

- Developed and deployed a web platform designed to support social discovery and group planning.
- Built reusable application components and organized discovery and planning functionality within a structured codebase.
- Used Git and GitHub for version control and deployed production builds using Vercel.

Experience

Self-Employed – Private Tutoring

2023 – Present

Tutor & Business Operations

- Manage client scheduling, lesson planning, pricing, and communication for an independent tutoring service.
- Teach math and science using clear step-by-step explanations adapted to individual student learning needs.

Enver Creek & Johnston Heights Secondary Cafeterias

Sep 2022 – Jun 2025

Customer Service & Prep Cook

Surrey, BC

- Worked in a high-volume environment while maintaining service quality, accuracy, food safety, punctuality, and reliability.

Leadership & Involvement

SFU Welcome Day – HIVE Volunteer

Sep 2026

- Supported orientation activities and helped welcome incoming students to the SFU community.

Youth Mentor & Club Leader – Johnston Heights Secondary

2022 – 2025

- Helped lead Robotics Club and Culture Club activities while supporting students with coursework and collaborative projects.

Certifications

MATLAB Onramp – MathWorks
Business Analytics with Excel – Microsoft
Professional Networking – HP LIFE

Python Essentials 1 – Cisco
Databricks for Machine Learning
REACH Employment Training – PCRS
